Sarvam AI — Forward Deployed Software Engineer

Dear Hiring Team,

I am applying for the Forward Deployed Software Engineer role at Sarvam AI. I like taking a problem from a stakeholder's description to working software, and I want to do that with agentic solutions for Sarvam's customers.

At FICO I built the monitoring UI that tracks AI agent evaluation outcomes, pass/fail status and agent responses, and extended the Reporting Controller with the APIs behind it. That work gave the team one place to see how agents perform. I work with Amazon Bedrock and Langfuse, and I hold the AWS Certified AI Practitioner certification.

I am based in Bengaluru, open to in-office, hybrid or remote work, and can join after a 30-day notice period. I would welcome the chance to talk through how I can contribute.

Sincerely,
Rhythm Sharma
