Razorpay — AI Builder

Dear Hiring Team,

I am applying for the AI Builder role at Razorpay. I ship AI tooling full stack without hand-offs, from backend APIs and data pipelines to the React front end, and I already work in financial technology.

At FICO I built the monitoring UI that tracks AI agent evaluation outcomes, pass/fail status and agent responses, and extended the Reporting Controller with the APIs behind it. That work gave the team one place to see how agents perform. I work with Amazon Bedrock and Langfuse, and I hold the AWS Certified AI Practitioner certification.

I am based in Bengaluru, open to in-office, hybrid or remote work, and can join after a 30-day notice period. I would welcome the chance to talk through how I can contribute.

Sincerely,
Rhythm Sharma
